|-----------------|--------------|-------|
| Test Platform A | \$3,000      | 49.0% |
| Test Platform D | \$1,536      | 25.0% |
| Test Platform C | \$1,500      | 25.0% |
| Uber            | \$41         | 1.0%  |
| Test Platform B | \$13         | 0.0%  |

## STABILITY ANALYSIS

- Verified periodic deposits detected
- Multiple active income channels
- High weekly earnings stability
- KYC bank verification successful

## VERIFICATION METHODOLOGY

This report was generated using direct-to-bank financial APIs (Plaid). Data is retrieved from the financial institution's source and has not been manually edited by the applicant. Gig income is identified using a proprietary platform-matching algorithm based on transaction metadata and MCC codes.

## VERIFIED BY GIGPROOF

Premium bank-verified report generated securely. Tamper-evident digital signature applied.
